ABOUT THE MEETING

The **Shoulder & Knee Arthroscopy to Arthroplasty Symposium – SKAA 2027** is a two-day international meeting on current concepts in shoulder and knee orthopaedics and rehabilitation. Under the motto **From injury to play!** it follows the patient through the entire journey – from injury and diagnosis, through surgery and rehabilitation, to the return to sport, work and everyday life. The symposium is held under the patronage of ESSKA – the European Society of Sports Traumatology, Knee Surgery and Arthroscopy.

The programme is single-track and case-based. Each topic opens with a state-of-the-art lecture, continues with a live battle between the **Orthopaedics team** and the **Physiotherapy team** on the fastest way back to play, and closes with a re-live surgery block paired with the matching rehabilitation. Six battles, two poster battles and an international faculty of more than 30 orthopaedic surgeons, sports medicine physicians and physiotherapists bring surgeons and rehabilitation specialists into one room – and everyone in the room votes. Day 1 is dedicated to the shoulder, Day 2 to the knee. The detailed programme and all updates are published on the symposium website.

MAIN TOPICS · FROM INJURY TO RETURN TO SPORT

Shoulder: shoulder instability (Latarjet, Bankart, bone block procedures), frozen shoulder, anatomic and reverse shoulder arthroplasty

Knee: ACL injury and reconstruction, meniscus pathology, patellofemoral instability

Rehabilitation: return to play and performance after shoulder and knee injury, future concepts in rehabilitation

ABOUT THE ORGANISERS

Orthopaedic Hospital Valdoltra (Ortopedska bolnišnica Valdoltra), founded in 1909 on the coast near Ankaran, is Slovenia's leading specialist orthopaedic hospital and a national referral centre for joint replacement and arthroscopic surgery of the shoulder, hip and knee. Its surgeons, physicians and physiotherapists work as one team from diagnosis to rehabilitation; the hospital is also a centre for education and research in orthopaedic surgery.

SKAA 2027 is organised together with **Arbor Mea Medical**, Ljubljana, and the **Slovenian Society for Arthroscopic Surgery and Sports Traumatology (SSASST)**, the national professional society for arthroscopic surgery and sports traumatology.

PARTNER WITH OUR EVENT

We invite companies to become industry partners of SKAA 2027 and connect directly with orthopaedic surgeons, sports medicine physicians, physiotherapists, kinesiologists and healthcare decision-makers from Slovenia and the region.

The symposium offers partners a platform to present their technologies, demonstrate products at the exhibition stands during all breaks and engage participants in an educational setting – including side events held in the exhibition area during the breaks. Customised partnerships are available on request.
